5TH GRADE WALL TILE PROJECT

WTP19

There are three categories of tile sponsorship:

Full Tile Sponsor **\$100**

Half-Tile Sponsorship **\$50**

Multi-Tile Sponsorship **\$80**

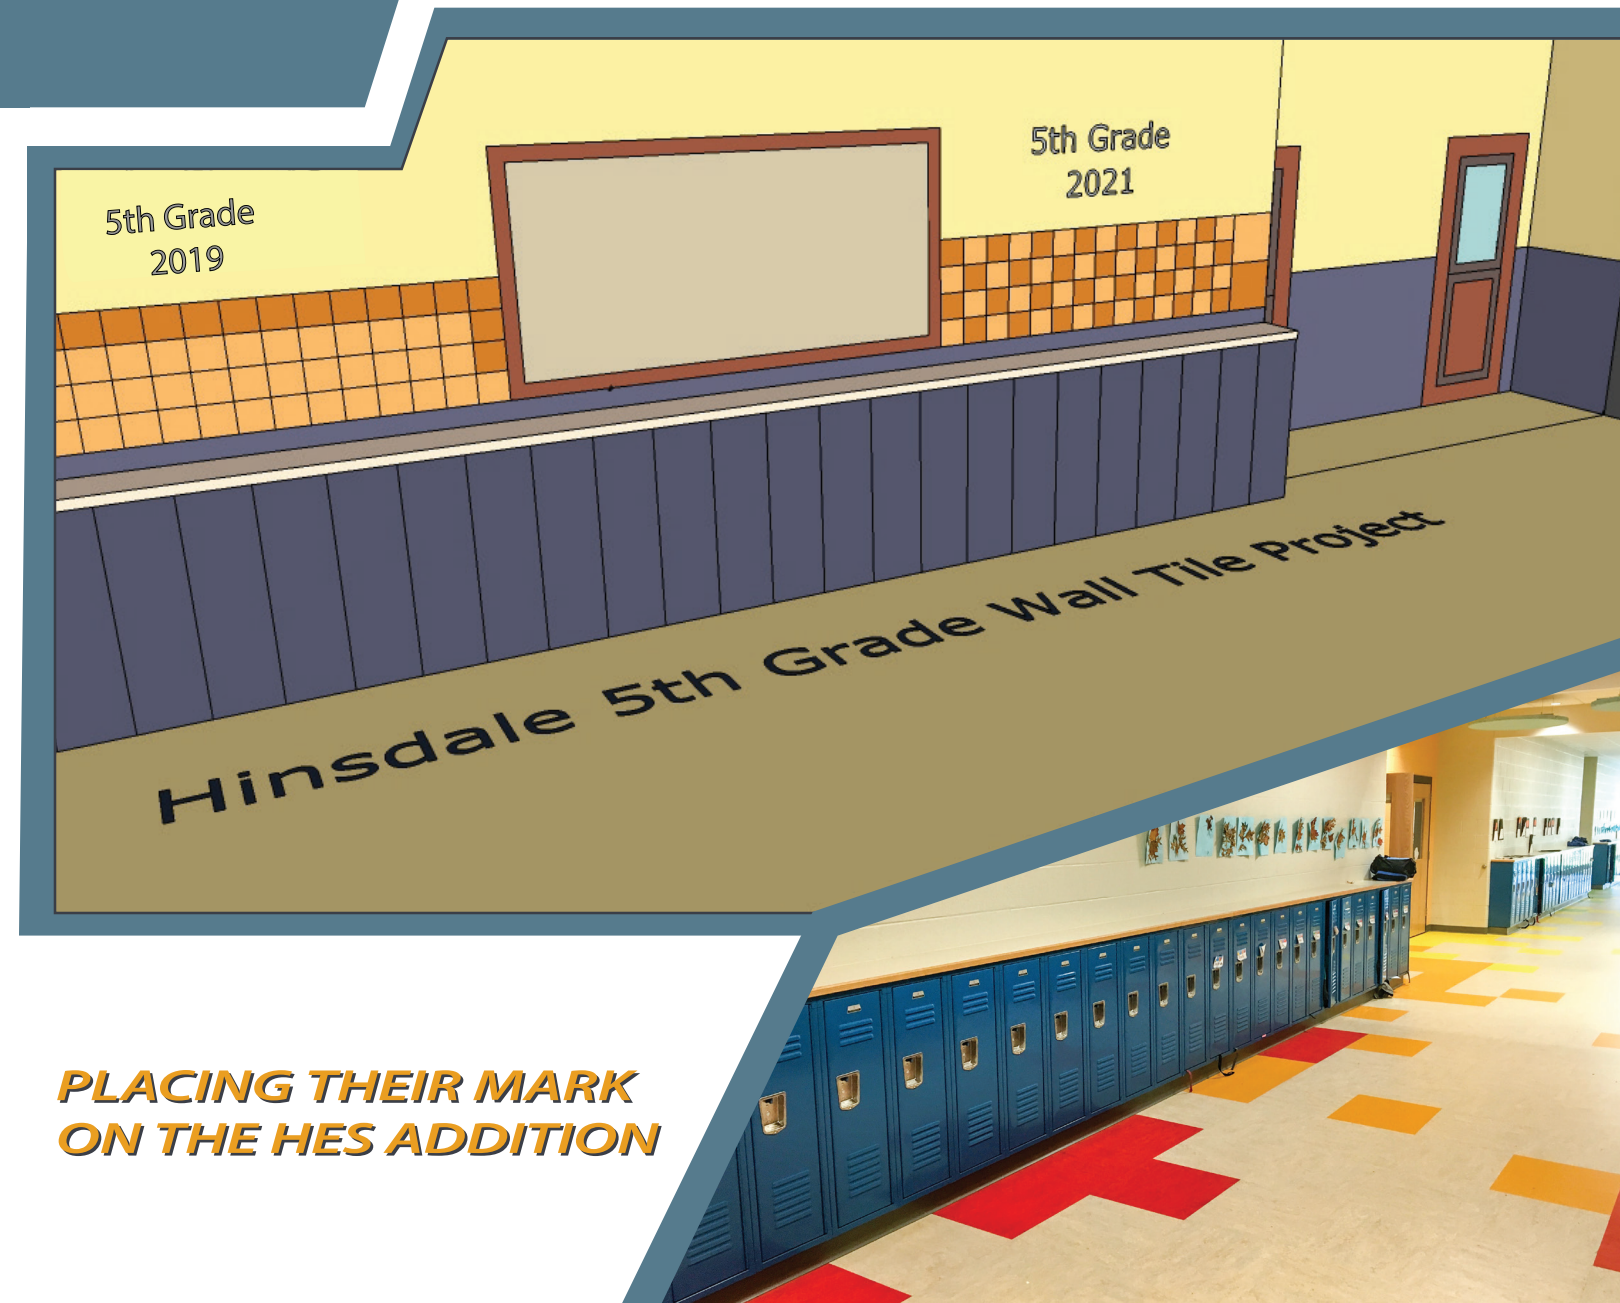

{per tile for two or more tiles.}

You can

- Mail your sponsor form
- Sponsor online at www.hinsdaleef.org
- Call Ann Diorio at 603-336-5728 ext. 7684

Sponsorships will cover the cost to purchase and install the tiles and to provide each student with an exact replica of their tile to keep as a memento of their role in the project and of their years at Hinsdale Elementary School. Funds received in excess of these costs will be maintained in a fund designated to support Hinsdale Elementary School programs and activities not covered in the Hinsdale School District's annual budget.

Please make your check payable to the **HINSDALE EDUCATION FOUNDATION**

WHAT IS WTP19?

THE 5TH GRADE CLASS HAS ALREADY BEGUN WORK WITH THE ART TEACHER AND THEIR CLASS TEACHERS ON A 16 SQUARE FOOT DESIGN

The Hinsdale Education Foundation (HEF) is pleased to announce a project to decorate the corridor of the new elementary school addition with tiles created by the 5th grade students.

WTP19 will engage every 5th grade student in creating and signing a tile as part of a design developed by the entire class to be permanently installed on the corridor wall in the new addition.

Eight wall sections have been designated to extend this project to include the 5th grade classes from 2019 thru 2026 assuring the participation of every Hinsdale child currently enrolled from Pre-K to 5th grade.

This project provides a meaningful way for 5th graders to culminate their elementary school years and mark their graduation to Middle School. The significance of making a personal and permanent contribution to the building recognizes the maturity level they have achieved.

The process of collaborating as a class on setting a theme, then a design to present that theme and ultimately creating the final installation will develop skills essential to success in the higher grades and in life in general.

This project has received the enthusiastic support of the School Board, elementary school administration, teachers and students.

EACH STUDENT WILL BE GIVEN A REPLICA OF THE TILE THEY CREATE

HOW YOU CAN HELP

The Foundation is reaching out to the community for funding to support this exciting project by becoming a WTP-19 Tile Sponsor. This fully tax deductible sponsorship is in support of the project as a whole and is not tied to any individual student's tile.

Every student is participating equally in WTP-19. We require 64 tiles to support a design created by 38 students.

All sponsors will be recognized in the Hinsdale Elementary School 2018-19 year book and at the unveiling of the installation in the Spring of 2019.

In addition, a poster of appreciation listing all sponsors will be on display in the corridor of the new addition until the Spring of 2020 when WTP-20 is installed.
